

The Abshire Breast Cancer Fund

established in 1989 by the Twig, junior auxiliary of Inova Alexandria Hospital and Carolyn Abshire

The Abshire Breast Cancer Care Fund promotes awareness of and supports women undergoing treatment for breast cancer. The fund may be used for community and education, mammogram screenings, support services for breast cancer patients and other initiatives to promote awareness and assist patients.

Inova Mobile Screening

Inova Saville Cancer Screening and Prevention Center launched its mobile screening program in January 2025 bringing free, comprehensive cancer screenings directly to underserved individuals in our community.

Inova Mobile Screening bus offers free:

- Mammograms for breast cancer screening
- Pap smears for cervical cancer screening
- Fecal Immunochemical Tests (FIT) kits for colon cancer screening
- Cardiac health screenings
- Genetic counseling and referrals
- Clinical trial enrollment
- Education and community outreach

Expanding access in our eastern region

Inova has embarked on a comprehensive plan – informed by patients, team members, community need, and data analysis – to expand and upgrade healthcare services in our growing Eastern Region communities of Alexandria, Mount Vernon, and Franconia-Springfield.

Well beyond nationally recognized care and world-class facilities, the plan expands access to critical services such as emergency care, behavioral health, cancer and orthopedics.

Once complete in 2028, Inova will have built state-of-the-art facilities across the Eastern Region, including:

- **Opened in late 2024:** A new outpatient care center in Oakville
- A new hospital in Alexandria at the former Landmark Mall
- **A new Inova Schar Cancer – Alexandria** freestanding facility delivering integrated cancer care, close to home
- A new hospital, the first, in Franconia-Springfield
